It's time to catch up

The 2026 Australian Persimmon Industry Conference and Field Day event is heading to Toowoomba.

As Queensland's largest inland city, Toowoomba is perched on the top of the Great Dividing Range in the heart of one of Australia's most productive food bowls and showcasing a growing urban culture. Toowoomba's economy has long been rooted in agriculture and is now considered the best performing agricultural region in Queensland. To the west, the Darling Downs is one of the richest agricultural areas in Australia, producing a wide variety of crops such as cotton, wheat, barley and sorghum, and intensive production of beef cattle, pigs and poultry. To the east, the Lockyer Valley is known as Queensland's "Salad Bowl" because of its significant vegetable and fruit production, and most importantly, persimmons!!

This year's conference offers a unique chance to reconnect, share knowledge, and explore the latest developments in persimmon production and marketing. Located approximately 125km west of Brisbane and easily accessible via its own airport, this agricultural hub will enable us to harness the wealth of knowledge in the Toowoomba area and visit the local persimmon growers.

Get ready to learn, network and be inspired by the innovation and expertise giving rise to the future of the persimmon industry.

The Program

The 2026 conference program is being generated to ensure that you are up to date with the current recommendations for persimmon production and marketing. The conference sessions will:

- Highlight marketing strategies for persimmons, with a focus on emerging trends and growth opportunities.
- Showcase the outcomes of Persimmon research and development projects.
- Discuss crop management practices designed to enhance fruit quality and boost productivity.
- Review the outcomes of the 2025 promotional campaign.
- Explore how Hort Innovation is investing levy funds to support industry development.
- Introduce innovative technologies shaping the future of the persimmon industry.

This is your chance to discuss ideas with leading researchers, growers, marketers and other relevant industry stakeholders, catch up with friends and bounce ideas off Hort Innovation staff to foster the growth of the Australian persimmon industry.
